

Year 2 Home-Learning Term 4

Challenge 1

Geography

You have been thinking about where food comes from. I would like you to design your perfect day of food. Write a menu of what you would like for breakfast, lunch and dinner.

Challenge 2

Science

What habitats do you have near your home? This could be your garden, a park nearby, the hedge by your home or a pond near where you live.

What do you think would live there? Could you explore? Draw or write what you saw.

Challenge 3

Dance

In dance, you would be thinking about superheroes. I would like you think of some movements which might link to different super powers. How could you show that you are super speedy? Could you think of a dance move that shows that you are able to fly?

Challenge 4

Maths

How many ways can you make the number 16? You can use up to 3 numbers. Can you find more than 20 different ways of finding a way to total 16?

Challenge 5

Geography- food

Make or bake something including an ingredient that is new or that you have not tried before. What was it like? Did you like it? Would you have it again?

Challenge 6

Geography

Take a look in your fridge at home. How many different places does your food come from? Can you find these places on a world map?
