

Helping Us to Help your Child

Some children have a really difficult start to their lives – we know that their early development can be hindered by all sorts of things. A tricky birth, a hearing problem, delayed speech, health worries – these are just a few examples of difficulties that could impact on a child’s early progress.

As a school we want to do the very best for each child – therefore planning for children to have a good start to their school life is very important, especially when arrangements need to be made for care and support.

If your child is due to begin school in September and you are aware that there is a difficulty the school needs to know about then please do bring this up during your **Home Visit** or make an appointment with Mrs Guthrie to talk over your worries. This will help with planning and will mean that everyone is working together for the benefit of your child.

When should you make an appointment?

If you do have a concern once your child starts school, do come and tell us. We will talk to you if we can see that your child could benefit from extra support in some way.

Please remember that we are all here to help you; sharing information is always a good idea – so please “Help Us to Help Your Child”.
